

Clean Air Healthy Lives

As a global leader in air purification, our mission is to protect people by providing clean air to breathe. Utilizing our medical-grade air cleaning system, we've developed **the only clinically proven air purifier that eliminates 99.97% of all particles as small as 0.3 microns and 95% of particles 0.1 microns and larger, including allergens, odors, bacteria, viruses, chemicals and gases.**

- ✓ Plug-in and starts working immediately
- ✓ Protects everyone (employees/patients/customers)
- ✓ Reduces airborne contaminants
- ✓ Small physical footprint (14.5" x 14.5" x 23")
- ✓ MERV-17 rated (H13) medical-grade HEPA filter
- ✓ Durable steel construction
- ✓ Non-toxic powder coated paint to prevent off-gassing
- ✓ Cost-effective

YOUR FIRST LINE OF DEFENSE IS CLEAN AIR

Clinical trials conducted by Johns Hopkins and Cincinnati Children's Hospital show that Austin Air Purifiers improve overall respiratory health.

Our air purifiers are highly recommended by allergists and medical professionals as they are designed to quickly and efficiently remove allergens, irritants, bacteria and viruses from indoor air. By investing in an Austin Air Purifier, you can protect your patients, customers, staff and medical professionals from the dangerous spread of airborne contaminants. Our purifiers also remove the particles that can damage lungs and exacerbate allergy and asthma symptoms.

Our goal is to help prevent the spread of respiratory infection and illness within:

- LONG TERM CARE HOMES
- HOSPITALS
- MEDICAL FACILITIES
- DENTAL OFFICES
- ASSISTED LIVING & GROUP HOMES

HOW OUR PURIFIERS WORK

The superior performance of the Austin Air Purifier begins as air is drawn into the unit via the 360-degree air intake system. Contaminants are captured using the most proven, powerful filtration available: medical grade HEPA and activated carbon. The medical grade HEPA filter featured in each Austin Air system eliminates 99.97% of all particles as small as 0.3 microns and 95% of particles 0.1 microns and smaller including pet dander, pollen, mold spores, dust mites, viruses and bacteria. Generous amounts of activated carbon remove volatile organic compounds (VOCs), chemical vapors, smoke and odors. Once filtered, crystal clean air is returned into your work space for your breathing pleasure.

PRODUCT SPECIFICATIONS

Our purifiers feature solid-steel construction, a quiet high-efficiency fan and a filter that is warranted to last an impressive five years. Available in four colours shown below.

UNIT:

HEALTHMATE HM400

QUICK REFERENCE:

RECOMMENDED FOR:

Allergies, asthma, odours, gases, chemicals and airborne viruses.

BENEFITS:

Large amount of carbon and zeolite for chemical and odour removal.

FILTER MAKEUP:

Carbon/Zeolite and True Medical HEPA.

FILTER LIFE:

Up to five years.

COVERAGE:

Up to 1,500 square feet.

COLOURS:

White, Black, Sandstone, and Midnight Blue.

WARRANTY:

5 years on unit, 5-year pro-rated warranty on filter cartridge.

Sandstone

Black

Midnight Blue

White

UNIT:

HEALTHMATE + PLUS HM450

QUICK REFERENCE:

RECOMMENDED FOR:

Allergies, asthma, odours, gases, chemicals, airborne viruses and chemical sensitivity to formaldehyde.

BENEFITS:

Best filter for those with formaldehyde chemical sensitivities. Carbon, zeolite and potassium iodide for chemical and odour removal.

FILTER MAKEUP:

Carbon/Zeolite impregnated with Potassium Iodide and True Medical HEPA.

FILTER LIFE:

Up to five years.

COVERAGE:

Up to 1,500 square feet.

COLOURS:

White, Black, Sandstone, and Midnight Blue.

WARRANTY:

5 years on unit, 5-year pro-rated warranty on filter cartridge.

WHY AUSTIN AIR PURIFIERS?

We have been the North American market leader in the air cleaning industry for over 30 years and are proud of our:

INDUSTRY EXPERIENCE – We operate the largest air purifier manufacturing facility in North America at 480,000 square feet and have been manufacturing air purifiers for over 30 years.

SUSTAINABLE RESOURCES – We take pride in sourcing our raw materials from sustainable resources that are also recyclable.

MADE IN AMERICA – Our air purifiers are manufactured in Buffalo, NY and distributed across Canada.

TRUSTED PARTNERS – We are recognized and used by FEMA, American Red Cross, US Army, Government of California, and Health Canada.

RELIABLE DISTRIBUTION – We offer multiple distribution points in Canada and USA.

QUALITY CRAFTSMANSHIP – We back our products with a 30-day no questions asked, money back guarantee along with a 5-year limited product warranty and 5-year pro-rated filter warranty.

TRUSTED & VIABLE SOLUTION

We are collaborative partners, ready to ship and deploy our product in times of need. From 9/11 to the Alberta wild fires, we are here to protect by offering the solution of clean air.

We have worked closely with government agencies for decades to protect their citizens during challenging times. Before being selected as a preferred vendor by the U.S. government, they conducted their own extensive testing of our units against more than 100 competitive products and concluded Austin Air Purifiers outperformed all other products on the market. Since then we have supported FEMA and the American Red Cross during some of the country's most challenging times including 9/11, Hurricane Katrina and countless other air quality emergencies.

Austin Air filtration is so effective, in fact, that they are used by Health Canada and US embassies around the world.
