

## Features & Benefits

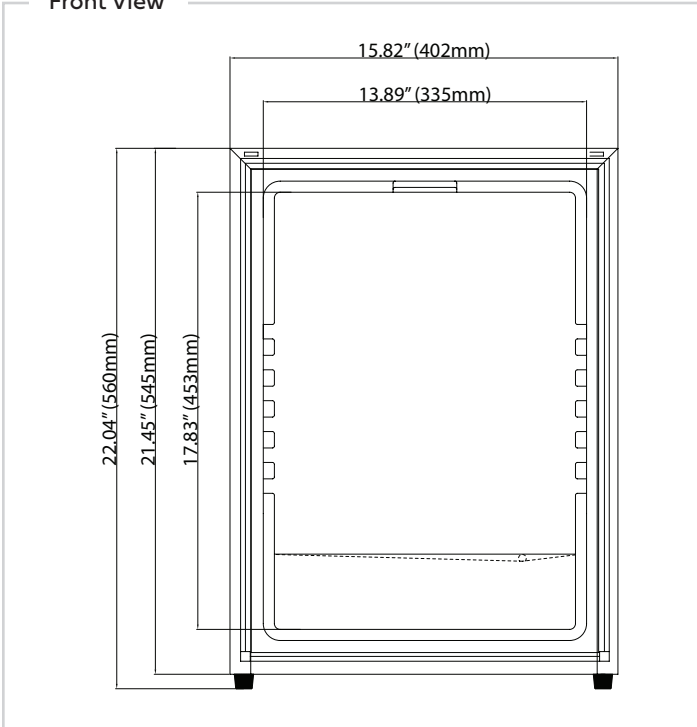

- The SMART thermostat optimizes energy use by automatically adjusting power consumption to your ideal temperature.
- Adaptable to 89.6°F ambient temperature
- Reversible door
- Auto defrost
- Zero noise operation
- Plastic shelves
- Infrared light switch
- Door type: Solid
- Frequency: 50/60( Hz)
- Input power: 65W
- Temperature range (from>to): 32°-50°F
- Energy consumption (EN 153) / 24 hours: 0.7 kWh
- Climate class: N
- Net capacity : 1.27 Cubic Feet

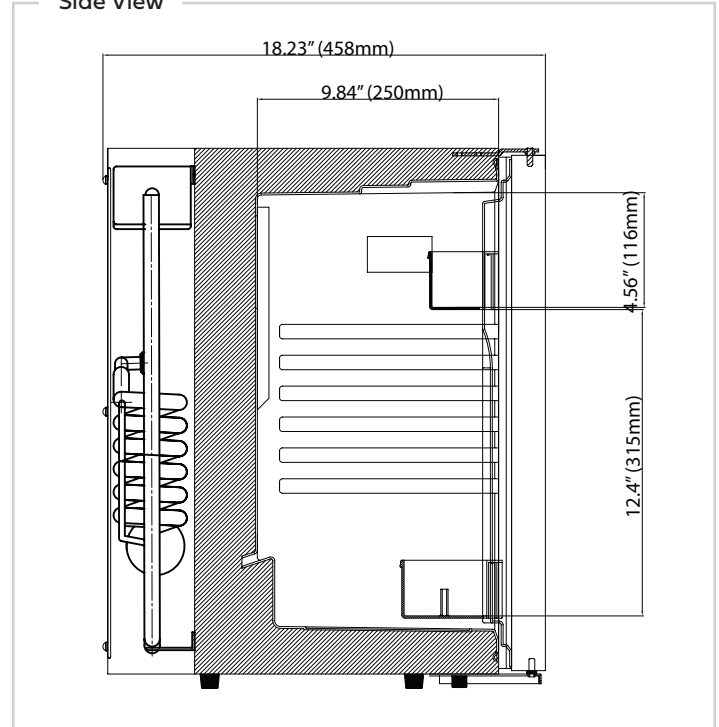

## Product Information

|                    |                          |          |               |
|--------------------|--------------------------|----------|---------------|
| Product Number     | FKP40CTE                 | Warranty | 1 Year        |
| Dimensions (W*D*H) | 15.82" x 18.23" x 22.04" | Voltage  | 220V/110V/12V |
